Edmondo Occhipinti
Founder and Director of 3-im

- 10+ years of experience in AECO industry
- 15+ years of experience with 3D and BIM technologies
- 7+ years Director at Gehry Technologies
- 50+ successful BIM projects in
- 10+ countries

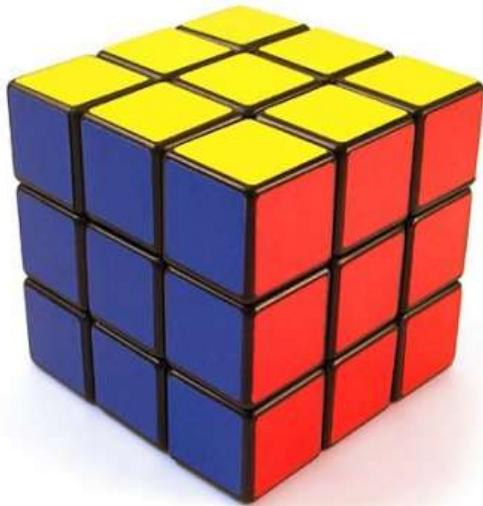

The Problem:

Construction is a \$3Trillion Industry Worldwide
Hundreds of Billions are wasted every year

- 10-15% materials are wasted
- 30% of construction is rework
- 40% of the manpower on sites is wasted
- 90% of mega-projects are 28% over budget
- 40% of projects completed late or over budget

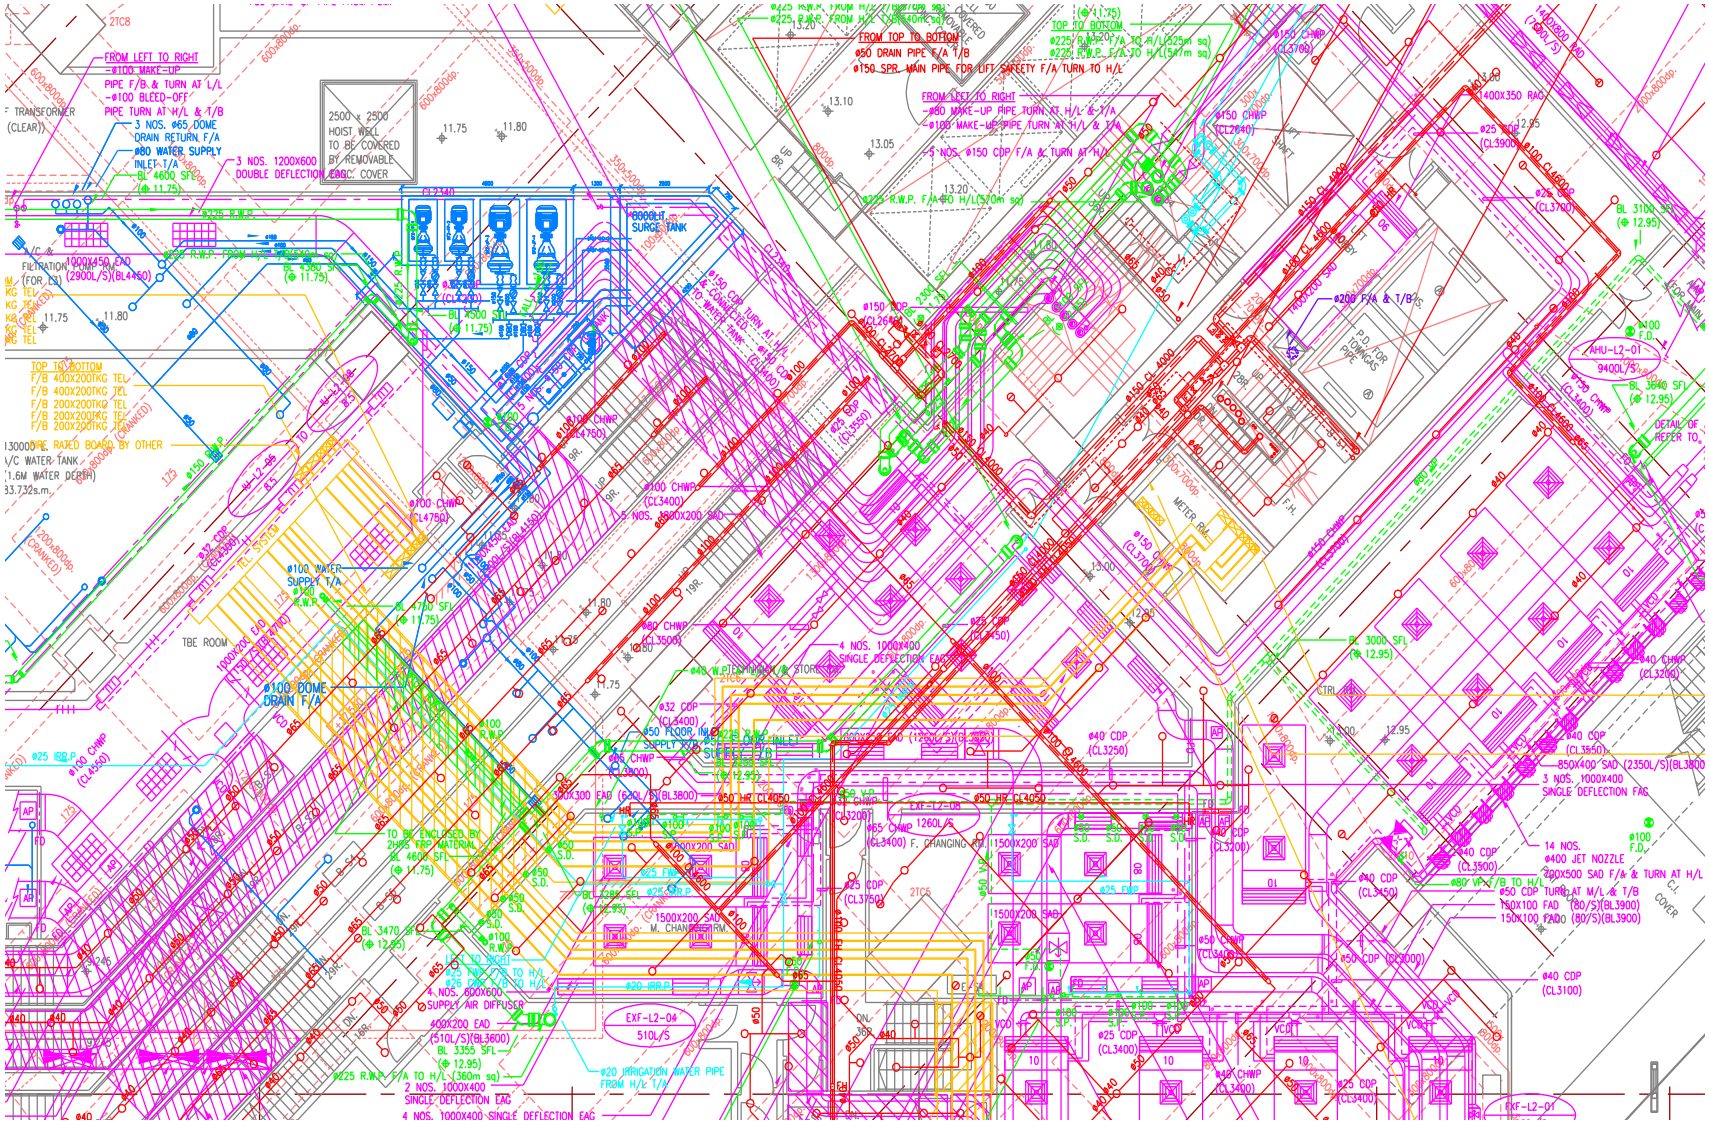

The Solution:

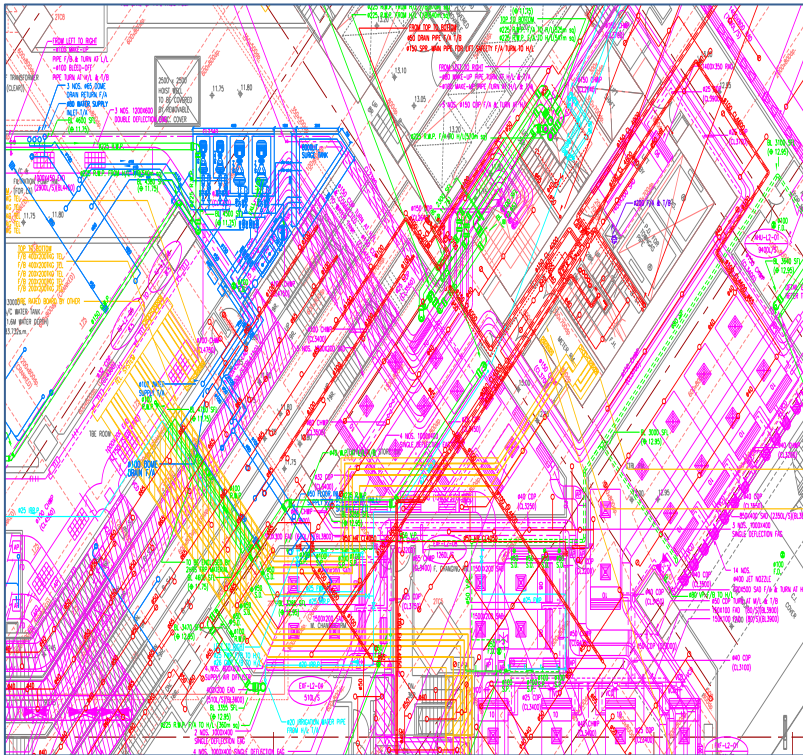

Sustainability

- Reducing the Waste
- Increasing Efficiency and Productivity
- Improving Quality of building construction

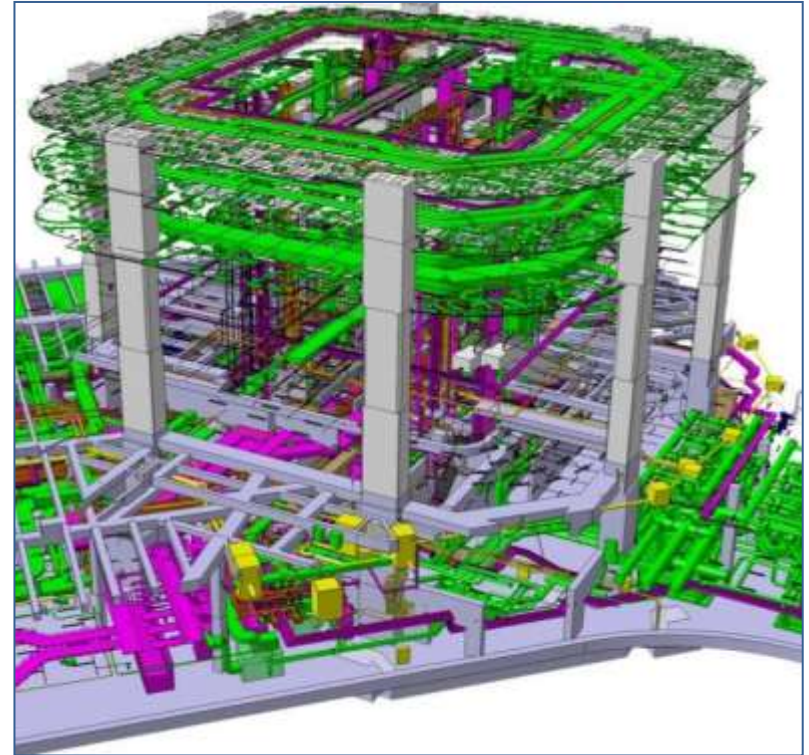

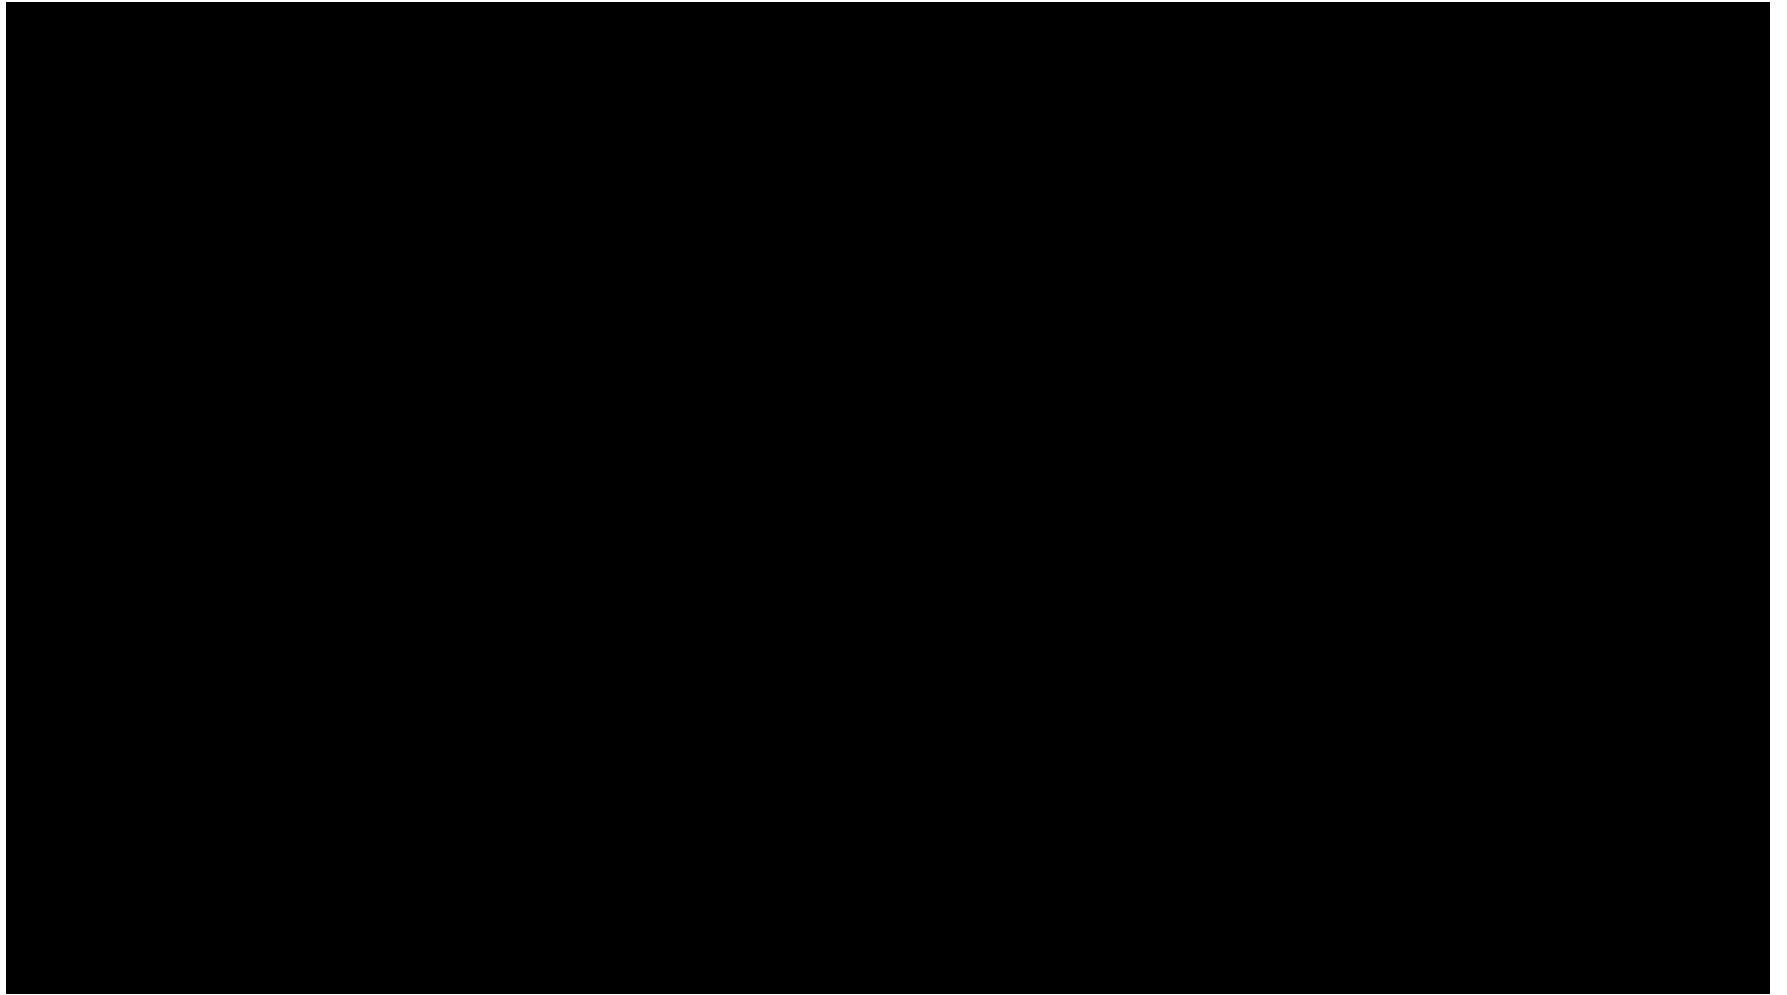

VS.

One Island East – Hong Kong Client: Swire Properties [Owner]

- 43 days of construction saved
- 15% of construction costs saved
- 143 RFI during construction
- 7 BIM projects after this
- AIA BIM Award 2008
